📍 Dhaka, Bangladesh

## SUMMARY

---

Python Developer with hands-on experience in Odoo ERP development and Django-based web applications. Skilled in building scalable backend systems, developing custom Odoo modules, automating business workflows, and integrating REST APIs. Strong understanding of Odoo ORM, PostgreSQL, XML/QWeb, and clean, maintainable code practices with a focus on delivering efficient enterprise solutions.

## EXPERIENCE

---

### Zencore Solutions Ltd.

Jan 2026 - Present  
Dhaka, Bangladesh

#### Senior Executive — Python & Odoo Developer

- Designed and deployed custom Odoo 17–19 modules for HRM, Inventory, Sales, Purchase, and Accounting using Python, Odoo ORM, XML views, and modular architecture.
- Built RESTful API endpoints using Odoo HTTP controllers with session-based and JWT authentication, reducing external client integration time by 40%.
- Automated business workflows using scheduled actions, server actions, and Python scripts, eliminating 15+ hours of manual data entry per week.
- Implemented role-based access control using `ir.model.access` and record rules to ensure secure data access across multi-company environments.
- Developed QWeb reports, wizard-based workflows, and business process customizations based on enterprise client requirements.
- Collaborated with cross-functional teams to gather requirements and translate them into production-ready Odoo configurations and backend solutions.

### Zencore Solutions Ltd.

Sep 2025 - Jan 2026  
Dhaka, Bangladesh

#### Executive — Python & Odoo Developer

- Developed and maintained Python-based backend solutions for business applications, automation, data processing, and system integrations.
- Created reusable Python scripts for data migration, data validation, API integration, and process automation, improving operational efficiency.
- Worked with PostgreSQL, REST APIs, JSON, and Python libraries to integrate internal systems and third-party services.
- Debugged application issues, optimized backend logic, and supported deployment of production-ready solutions.
- Contributed to Odoo module development using Python ORM, models, business logic, XML views, and report customization.

### AppExit

Dec 2024 - Aug 2025  
Dhaka, Bangladesh

#### Django Developer

- Designed software documentation using Use Case, ER, DFD, and Class diagrams for system planning and development.
- Assisted in technical presentations and collaborated with the team on planning development stages of software projects.

## PROJECTS

---

### Asset Management System

Completed

**Technology:** Python, Odoo ORM, XML, PostgreSQL, QWeb

- Developed a custom Odoo module to manage the complete lifecycle of company assets, from procurement to disposal.
- Implemented employee-wise asset allocation, return workflows, and asset tracking.
- Automated straight-line depreciation with accounting journal integration and validation logic. Designed form, list, and search views with advanced filters and group-by options.

### Micro Finance Management System

Completed

**Technology:** Python, Odoo ORM, XML, PostgreSQL, QWeb

- Built a custom Odoo module for client onboarding, loan applications, and micro-loan disbursement workflows.
- Implemented flexible loan and installment scheduling with configurable interest rates, tenure, and repayment frequency.
- Automated EMI generation, repayment tracking, and overdue status updates.
- Designed relational Odoo ORM models and applied business rules for loan approval, guarantor validation, and credit limits.

### Export LC Management System

Completed

**Technology:** Python, Odoo ORM, XML, PostgreSQL, QWeb

- Developed a custom Odoo module to manage export Letter of Credit (LC) processes and related workflows. Implemented LC information, document tracking, shipment details, and workflow status management.
- Designed custom models, XML views, and business logic using Odoo ORM and PostgreSQL. Developed automated workflows and validations to improve accuracy and streamline export operations.

## EDUCATION

---

Diploma in Computer Science & Engineering (CSE)

Aug 2019 - Aug 2023

**Brahmanbaria Polytechnic Institute**

Bachelor of Science in Computer Science & Engineering (CSE)

2024 - Present

**Dhaka International University**

Dhaka, Bangladesh

## TECHNICAL SKILLS

---

**ERP & Odoo :** Odoo 17–19, ORM, Custom Modules, XML Views, QWeb Reports, Wizards, Access Rights, Record Rules, Scheduled Actions, Accounting Integration, Migration, Server Setup, Odoo.sh

**Languages :** Python, JavaScript, C, C++, HTML, CSS

**Frameworks & Libraries :** Django, Node.js, Bootstrap

**Databases :** PostgreSQL, MySQL, SQLite

**Tools & Platforms :** Git, GitHub, Docker, REST APIs, Postman

## LEADERSHIP

---

**BBPI Programming Club**

2022 – 2024

**Moderator**

BBPI, B-Baria

Organized and coordinated programming contests and gaming events for the students computer science community, promoting student engagement and teamwork.

## CODING PROFILES ACHIEVEMENTS

---

- Solved 500+ basic and algorithmic problems on online judges, achieving a maximum rating of 1200+.
- Participated in competitive programming contests on Codeforces and CodeChef, strengthening problem-solving and algorithmic thinking.
- **Certifications:** Skill Competition 2022, Programming contest participant Certifications.
- **Awards/Activities:** 5<sup>th</sup> place in BBPI programming contest
